

Commercial Engine Actuator Exchange Program

Arkwin's commercial engine actuator exchange program, developed exclusively for the CFM56-5/-7, CF6-80C2, CF6-80E1 and CF34-8C/E engines, provides operators the reliability of OEM new products at a competitive price. The premise of the program is simple – ship us your removed actuator and if it qualifies for a major overhaul, we'll exchange it for a Factory New OEM production unit.

Benefits of Exchange vs Repair

- Turnaround time 72 hours or less
- Factory New Warranty – 3 year/6000 EOH
- No unscheduled events due to inferior parts
- Available directly from Arkwin or through Aviall
